

The four easiest-to-read static morphology zones

Each card shows the most extreme named subfields inside one simple structural quadrant.

Broad + concentrated

n=47

wide territory, strong hubs

- **Philosophy**
Social Sciences
- **Pharmaceutical Sci.**
Life Sciences
- **Physical and Theoretical Chemistry**
Physical Sciences
- **General Materials**
Physical Sciences
- **Organic Chemistry**
Physical Sciences

Broad + smooth

n=64

wide territory, weak hubs

- **Artificial Intelligence**
Physical Sciences
- **Molecular Biology**
Life Sciences
- **Electrical Engineering**
Physical Sciences
- **Biomedical Eng.**
Physical Sciences
- **Cognitive Neuroscience**
Life Sciences

Compact + concentrated

n=77

tight territory, strong hubs

- **Applied Microbiology**
Life Sciences
- **Molecular Medicine**
Life Sciences
- **Toxicology**
Life Sciences
- **Radiological and Ultrasound Technology**
Health Sciences
- **Med. Lab Technology**
Health Sciences

Compact + smooth

n=53

tight territory, weak hubs

- **Research & Theory**
Health Sciences
- **Leadership and Management**
Health Sciences
- **Business and International Management**
Social Sciences
- **Aging**
Life Sciences
- **Equine**
Health Sciences
